Usage (gal.):	Bill Total:
2,000	\$12.25
5,000	\$19.50
10,000	\$27.00

Base rate under 10,000 gallons hasn't had an increase since Sept. 1977.

In 2006 we raised 10,000 gallons and up \$.50 per 1000 gallons.

With the increasing cost of Electric, Chemicals, Wages and everyday maintenance,  
the Water District has no other option than to increase our water rates at this time.

You can find the new water rates posted on the website along with the old rates for a comparison
